

Museum On A Stick

MUSEUM ON A STICK is the world's first virtual tour of fine art museums and art collections designed specifically for your digital frame, television, or computer monitor. Whether watching our unique Art Shows directly, or leaving them to play in the background, these continual slide shows immediately enrich your home, office, lobby, classroom, or place of business.

Each MUSEUM ON A STICK Collection of masterpieces can play with optional classical music that we have carefully chosen to enhance your enjoyment and learning experience.

MUSEUM ON A STICK Art Shows are 90 minute cycles of beautiful, inspiring, and educational images.

Each Collection holds hundreds of images - both famous works of art and new discoveries rarely seen in public – all beautifully choreographed for maximum enjoyment.

The MUSEUM ON A STICK Screen Saver is an abbreviated version of each of our Art Show Collections – 25 to 30 images – specifically designed for your computer's screen saver function. Allow MUSEUM ON A STICK to enhance your quality of life, entertain at your next party, and offer your family a greater awareness of the arts without even trying.
